Your future

- Architecture firms
- Applied research
- Property development
- Design of architectural spaces
- Project management and construction for the public and private sectors

Did you know that... Tec architecture alumnus Román Meyer Falcón is currently the Minister for Agrarian, Land and Urban Development in Mexico?

*An Architect's career path is extremely diverse. Therefore, we have two entries that will allow you to pursue this field, according to your interests, vocation and expectations.

You should know that, regardless of the entry you select, there will be challenges as well as classes that will enable you to enjoy all the competencies required for your preparation. Therefore, the education received between one entry and another is comparable.
